Andhra Pradesh, India

Professional Summary

Results-driven Data Analyst with 2 years of experience in SQL-based reporting, dashboard development, and business data analysis. Skilled in Power BI, Tableau, Excel, and Python for transforming complex datasets into actionable insights. Experienced in KPI reporting, data cleaning, ETL processes, and dashboard automation to support data-driven business decisions and improve reporting efficiency.

Skills

- **Programming & Databases:** SQL, Python, MySQL, PostgreSQL.
- **Data Analysis:** Pandas, NumPy, Excel, Data Cleaning, Data Transformation.
- **Visualization Tools:** Power BI, Tableau, Matplotlib.
- **Reporting & BI:** KPI Reporting, Dashboard Development, Business Intelligence, ETL Pipelines.
- **Tools & Platforms:** Jupyter Notebook, VS Code, GitHub.

Work Experience

Data Analyst

Aug 2023 – Aug 2025

PricewaterhouseCoopers (PwC)

- Developed and maintained interactive dashboards using Power BI and Tableau to support business reporting and performance tracking.
- Wrote optimized SQL queries for extracting, cleaning, and analyzing datasets containing 3000+ records.
- Performed data cleaning, transformation, and validation to improve reporting accuracy and support business decision-making.
- Assisted in building and maintaining ETL pipelines for data extraction, transformation, and loading.
- Improved SQL query performance through indexing and query optimization techniques.
- Collaborated with stakeholders to understand reporting requirements and deliver analytical solutions aligned with business objectives.
- Generated KPI reports and visual dashboards to monitor operational metrics and business trends.
- Supported reporting and compliance processes by maintaining data accuracy and reporting standards.

Projects

Credit Card Spending Analysis | Python, SQL, Tableau, Data Analysis, Dashboard Development

- Analyzed 3000+ credit card transaction records using SQL and Python to identify customer spending behavior and city-wise trends.
- Developed interactive dashboards in Power BI and Tableau to visualize category-wise spending, monthly trends, and customer segmentation.
- Performed data cleaning, transformation, and exploratory data analysis using Pandas, NumPy, and Excel.
- Automated reporting workflows using SQL queries and Python libraries to improve reporting efficiency and data processing.
- Generated actionable insights from transaction datasets to support data-driven business analysis.

Retail Sales and Inventory Analysis | SQL, Tableau, Excel, KPI Reporting

- Analyzed retail sales and inventory datasets using SQL and Excel to identify sales trends and product performance insights.
- Built interactive Tableau dashboards with dynamic filters and KPI metrics for revenue tracking and inventory monitoring.
- Performed data extraction, transformation, and validation from retail datasets to improve reporting accuracy.
- Created visual reports for sales forecasting, inventory tracking, and category-wise performance analysis.

Daikibo Telemetry Analysis - Virtual internship project | Tableau, Excel, KPI Reporting,vs code

- Analyzed telemetry data from **four manufacturing facilities** to identify machine downtime patterns and operational failures during May 2021.
- Built an **interactive Tableau dashboard** with KPI cards, downtime analysis by factory and machine type, and dynamic filters for performance monitoring.
- Created a **calculated field** to measure equipment downtime by converting unhealthy machine status into downtime minutes for accurate reporting.
- Identified the **factory with the highest downtime** and the machine types contributing most to equipment failures, supporting data-driven maintenance decisions.
- Demonstrated skills in **Tableau, JSON data processing, dashboard design, KPI reporting, and business intelligence** to transform raw telemetry data into actionable insights.

Certifications

- Microsoft Certified: Power BI Data Analyst Associate (PL-300) - pursuing.
- Data Analytics Job Simulation - Deloitte.

Education

Bachelor of Technology (B.Tech) in Electrical and Electronics Engineering

Shri Vishnu Engineering College for Women | 2023

CGPA: 8.1
